Board Maharashtra
Medium Marathi
Year of Passing 2017
Grade 60-64.9%

WORK EXPERIENCE

PROJECTS

Speech Converter, 1 Months

Purpose: Develop a web app that converts text input into audible speech in real-time.

Features:

Text input field.

Voice selection options.

Speech synthesis with volume and speed control.

Pause and stop buttons.

Responsive design for various devices.

Error handling and accessibility considerations.

Technology Stack: React for the UI, TTS API or library for speech synthesis, CSS for styling, JavaScript for interactivity, and potential state management tools.

Royal Hotal, 5 Months

building a web application with HTML5, CSS3, JavaScript, PHP, and MySQL for hotel operations.

Key features include user authentication, room booking, admin dashboard, guest profiles, reservation management, payment processing, staff management, reviews, and more. Deployment requires a web server, and testing and optimization are crucial for performance and security. Future enhancements may include mobile apps or

additional integrations.

Movie Search, 3 Months

Creating a "Movies Search Website" using JavaScript and APIs involves building a user-friendly platform for searching and discovering movies. Key features include search functionality, dynamic updates, movie listings with details, filtering and sorting options, user ratings and reviews, watchlist support, and responsive design. Deploy the website, test thoroughly, and consider future enhancements like personalized recommendations and social sharing.

OTHER INTERESTS

movies, music, coding
